

Monday February 3

— 08:30 – Registration —

Wallenberg		
10.00-10.15	Welcome to Sweden Liver Week 2020	Hanns-Ulrich Marschall Catarina Skoglund
Timing of liver transplantation, and obesity as a new challenge		
Chairs: Anna Cederborg and Magnus Holmer		
10.15-10.40	Hepatology consultation #1: Liver transplantation in severe obesity—case-based discussion	Magnus Holmer Mats Karlsson
10.40-11.05	Obesity as a possible risk factor for liver transplantation – the anesthesiologist's perspective	Marcus Brynolf
11.05-11.30	Obesity as a possible risk factor for liver transplantation – the surgeon's perspective	Bengt Gustafsson
11.30-11.40	Short break	
11.40-12.00	To starve or to feed – Nutrition and malnutrition in the obese cirrhotic patient	Catarina Lindqvist
12.00-12.30	Timing of liver transplantation in the pediatric patient	Nils Ekvall
12:30-13:30	LUNCH and EXHIBITION	

Wallenberg	Portal hypertension	
	Chairs: Hanns-Ulrich Marschall and Antti Oksanen	
13.30-14.00	Common and rare causes of portal hypertension	Fredrik Rorsman
14.00-14.45	Treatment of bleeding from gastric varices – a case-based discussion	Fredrik Rorsman Michael Wagner Charlotte Eberling-Barbier
14.45-15.15	Portal hypertension: Assessment of risk factors for decompensation during general surgery in patients with cirrhosis	Ingalill Friis-Liby Ellinor Wisén
15.15-15.45	Coffee break	
Wallenberg	Drug induced liver injury (DILI)	
15.45-16.30	A structured approach to drug-induced liver disease	Einar Björnsson

Wallenberg	Satellite symposium: Management of hepatic encephalopathy - drugs or bugs?	NORGINE
16.30-16.45	Introduction and the Swedish perspective	Staffan Wahlin
16.45-17.30	Modulating the gut microbiome in the treatment of hepatic encephalopathy	Debbie Shawcross
17.30-17.45	Discussion	Chaired by Staffan Wahlin
17.45	Buffé at Konferenscentrum Wallenberg	

Tuesday February 4

Wallenberg	Liver transplantation in patients with pulmonary complications and diseases	
	Chairs: Henrik Gjertsen and Andreas Schult	
08.30-08.55	Portopulmonary hypertension	Sven-Eric Bartfay
08.55-09.20	Hepatopulmonary syndrome	Staffan Wahlin
09.20-09.50	Liver transplantation in cystic fibrosis-associated liver disease	Marita Gilljam
09.50-10.20	Coffee break	
	Challenges in liver transplantation	
10.20-11.00	Too old to transplant? Outcome of liver transplantation with aging donors and recipients	Wojciech Polak
11.00-11.40	Sarcopenia and frailty – nutritional support and physiotherapy in the liver transplant candidate	Catarina Lindqvist Inga-Lena Gunnesson
11.40-12.05	Chronic hepatitis E in transplant recipients	Heléne Norder
12.05-12.30	The importance of DSA in liver transplantation	Allan Rasmusson
12:30-13:30	LUNCH and EXHIBITION	

Europahallen	Omvårdnadsprogram (Nurses' programme, in Swedish)	
	Moderator: Karin Edlund och Gordana Grujcic	
08.30-08.35	Välkomna och praktisk information	Karin Edlund Gordana Grujcic
08.35-09.20	Personcentrerad vård och transplantation	Anna Forsberg
09.25-10.05	Transition och adherence – från barnsjukvård till vuxenvård	Lena Hallberg Rebecca Backmark
10:05-10:30	Coffee break	
10.30-11.15	Patientutbildning	Micaela Viss Annette Lennerling
11.15-12.30	Paneldiskussion	Samtliga föreläsare under ledning av Anna Forsberg
12:30-13:30	LUNCH and EXHIBITION	

Tuesday February 4

Wallenberg	Navigation-directed surgery and ablation	
	Chairs: Magnus Rizell	
13.30-14.00	Navigation-guided ablation of liver tumors	Jennie Engstrand
14.00-14.30	Can we use navigation guidance in liver surgery?	Björn Edwin
14.30-15.00	Case-based discussion	Magnus Rizell
15:00-15:30	Coffee break	
15.30-16.00	Radiological diagnosis of liver tumors: How shall LIRAD be interpreted?	Farida Hashimi
16.00-16.30	How do we calculate tumor burden in the LIRAD era?	Mats Andersson
16.30-17.00	Panel discussion of selected cases	All

Antarktis	Paediatric workshop	
	Chairs: Björn Fischler and Nils Ekvall	
13.30-14.15	Next generation sequencing in pediatric hepatology – what have we learnt and how should we continue?	Henrik Arnell Carolina Backman Johansson
14.15-15.00	Pediatric liver transplantation – what happens in the long run?	Timo Käppi
15:00-15:30	Coffee break	
15.30-16.15	Pediatric autoimmune hepatitis – diagnostics and treatment + update Nordic study	Marianne Jörgensen
16.15-17.00	Interactive case presentations	Afrodite Psaros Einberg

Europahallen	Omvårdnadsprogram (Nurses' programme, in Swedish)	
	Moderatorer: Karin Edlund och Gordana Grujcic	
13.30-14.30	En patient som berättar om sin resa som levertransplanterad	Fredrik Sjögren
14:30-15:00	Coffee break	
15.00-15.45	Vikten av muskelkraft	Gunilla Hallste
15.50-16.45	Alkoholens effekter på hjärnan – prestation, koncentration och motorik	Bo Söderpalm

18:30	Congress Dinner at Elite Park Avenue Hotel	Kungsportsavenyn 36
--------------	---------------------------------------------------	----------------------------

Wednesday February 5

Wallenberg	Clinical consultations in hepatology	
	Chairs: Ingalill Friis-Liby and Per Stål	
08.30-08.50	Hepatology consultation #2: Severity of liver disease in NAFLD	Mattias Ekstedt
08.50-09.50	Novel and emerging treatments of advanced liver disease	Antti Oksanen Anna Cederborg
09.50-10.20	Coffee break	
10.20-10.40	Hepatology consultation #3: Portal vein thrombosis in cirrhosis	Iris Posserud
10.40-11.30	Bacterial and fungal infections in patients with severe liver failure	Konstantina Sargenti Magdalena Ydreborg Jacob Holmqvist
11.30-12.00	Hepatology consultation #4: Non-malignant focal liver lesions	Per Stål Louiza Loizou
12.00-12.10	Wrap-up and next year Sweden Liver Week	Hanns-Ulrich Marschall Per Stål
12:30-13:30	LUNCH and EXHIBITION	

Europahallen	Basic science workshop	
	Chairs: Annika Wahlström and Ewa Ellis	
09.00-09.30	Dietary lipids, gut microbiota and liver metabolism	Robert Caesar
09.30-10.00	Studies of human liver-resident lymphocytes	Martin Cornillet
10.00-10.30	Coffee break	
10.30-11.00	Role of Notch signaling in liver development and disease	Noemi Van Hul
11.00-11.30	Microbiota and fatty liver disease: friend or foe	Antonio Molinaro
11.30-12.00	Role of TGIF1 in hepatic lipid metabolism	Camilla Pramfalk
12.00-12.30	Of mice and men: murine bile acids explain species differences in bile acid and cholesterol metabolism	Sara Straniero
12:30-13:30	LUNCH and EXHIBITION	
13.30-14.00	The role of FXR in liver pathophysiology	Samer Al-Dury
14.00-14.30	Circulating FGF19 is increased at the time of portoenterostomy in biliary atresia and its subsequent decrease is related to the outcome at early follow-up	Helene Johansson
14.30-15.00	PNPLA3 inhibition a precision medicine strategy to treat fatty liver disease	Stefano Romeo

Antarktis	Postgraduate course: Challenging cases in liver disease (max 25 participants)	
13.30-16.00	Chairman: Antti Oksanen and Mattias Ekstedt	
13.30-14:15	Fall 1: Flucloxacillin-related DILI: current management	Axel Josefsson Yvonne Björk
14:15-14:45	Fall 2: Diagnosis of autoimmune hepatitis: which tests shall we use today?	Maria Antonella Burza
14:45-15:00	Coffee break	
15:00-15:45	Fall 3: Variceal bleeding: how to manage primary and secondary prophylaxis	Daniel Klintman Nima Mottacki
15:45-16:00	Discussion and wrap up
